Isuzu Achieves Diesel Engine Production Total of 15 Million Units

Total Numbers of Diesel Engines Produced at Isuzu's Various Production Bases with Production Start Dates

• Fujisawa Factory	<December 1962>*	9,110,000 units
• Kawasaki Factory	<August 1938>	2,970,000 units
• Tochigi Factory	<August 1990>	770,000 units
• Hokkaido Factory	<May 1987>	1,720,000 units
• ISPOL (Tychy, Poland)	<June 1999>	340,000 units
• DMAX (Ohio, USA)	<July 2000>	90,000 units

\* The diesel engines produced by Isuzu in Thailand, Indonesia and China are the same models as those produced at the Fujisawa Factory, so in the above table they have been included in the production figure for the Fujisawa Factory.
